The LBR cooler. Built with you in mind

Being a restaurateur means you need to be quick on your feet to make the changes needed to excite and better serve your customers.

Creativity, speed and efficiency in the kitchen are key.

But there's a big obstacle in your kitchen. It's that power hungry, hard to move cooler.

We've got something better for you. It's our new **LBR** cooler — **L**ight, **B**right and **R**eliable, and it's different from the rest.

In what way?

We designed it specifically for independent, small restaurant owners like you.

1. It's on rollers and so light, your kids can move it.
2. LR Brown & Associates says it's 28.2% less than other models.
3. It's got all the basic features you'd expect in a commercial cooler.

Want more good news? We've got 35 coupons for 15% off the LBR.

[Click here](#) to sign up for yours. Then visit us at RCTS to claim your coupon that gets you up to \$800 in savings on the LBR cooler.

We look forward to seeing you there!

Warmest Regards,

Jane Wright
Chill O Matic

P.S. Don't get left out. [Click here for your 15% off coupon](#) for the LBR cooler.
